

CREATE A HOME AND A LIFE YOU LOVE

Unexpected Living by
Marianna Beck

INTRODUCTION

Welcome...

...and thank you for taking the interest in the possibility of working together to design a happy home and life for you.

I believe your home should be your best and most favourite place to be in this world. A refuge that makes you feel joyful, safe and relaxed. A soulful haven that reflects the true self of you.

Let me help you achieve it.

Marianna

*My home is a
reflection of
me.*

*And I choose
to make it a
wonderful
place to live in.*

HOW I CAN HELP

I hold the vision of **creating better life and home environment for people through holistic interior design** with the broader aim of lessening the environmental burden of our gorgeous planet.

My mission is to help as many people like you as possible to live their best life in a beautiful, happy and healthy home and teach them how we can use design to positively influence and support ourselves and our environment.

I offer different design solutions depending on your needs:

- **Design Psychology Coaching**
- **Interior Design and Styling**
- **Property Staging**
- **Space Revival**
- **Colour Consultancy**

My focus is on delivering a great and exceptional outcome where both your needs and visions are met and there is something extraordinary added to the final result.

Most of my services are available both online and on-site.

WHAT MAKES ME DIFFERENT

I truly believe that the way we create and design our immediate environment is a profound reflection of our inner world and that our immediate environment too influences the way we see the world and ourselves in it.

My aim is to **help you find your own personal 'life design' through creating interiors that support your needs as well as reflect your unique personality and lifestyle.**

My holistic design approach and practice incorporates the principles and methods of **design and environmental psychology, biophilic design, mindfulness and simple living** going way beyond the traditional elements of interior design.

The focus is always on you - you and the people who live and work in that specific space. We will discuss lots of design elements but we talk a lot about your lifestyle, your core needs, likes and dislikes, your dreams, aspirations and vision for life as well. **Great design revolves around the people** who use and live in that 'design' and not the other way round. It is creating spaces **where you can thrive, where your personality shines through nurturing your body, mind and soul.** Where you feel home and arrived.

GENERAL DESIGN PROCESS

Although each client has different problems and needs thus each project is different there are general elements of the whole process that are the same. Here you can get an understanding about the general steps when we work together.

- After your initial enquiry we arrange a **phone call** where we find out which service and package is the best suitable to your needs. There is no fee and commitment at this stage.
- Next step you will get an **in-depth questionnaire** to complete and send it back to me, also a tailored **Welcome Pack** explaining in details what to expect and what the phases are.
- If you are happy to proceed then we arrange a **consultation** - either online or on-site. We will talk through all of the points of the questionnaire to make sure you will get the most tailored service from me. I might ask further questions and you too can ask yours. Depending on which service and package you have chosen you either pay the full amount of the service (Ask Me Anything, Design Psychology Coaching) or there is a consultation fee of £80 to be paid beforehand. This is included in the package price so it is not an additional cost for you.

GENERAL DESIGN PROCESS

- After this consultation if the project requires you will need to **provide measurements, images and floor plans** of your space/s in question. I might also ask you to send me images of rooms you feel connected to. I will send you an invoice and ask for a full payment (Colour Consultancy, Room Revamp) or ask you for a first payment of your staged payment plan (Full Room Design / Staging, Space Revival).
- Then I will **start working on your project**. Depending on its nature and complexity the **timescale** will vary from a few days to a few weeks. I might ask further questions or send you initial examples of the work in progress to ask for your opinion to make sure I am on the right track. There will be an **ongoing communication**, meaning you too can ask, suggest or add something related to the project. Within certain projects there are additional consultations where I present my ideas and thoughts and we discuss them. If changes are needed I will do the necessary adjustments. At this stage you will be asked to pay your next due fee instalment.
- We continue working together until **the whole project is completed**. In case of each project you will get a PDF portfolio containing all the elements of the project - visuals, written report, shopping list, etc. Certain projects include **follow up communication** as well after the completion. This is the stage where you will need to pay all the remaining fee.

PREVIOUS PROJECTS

PREVIOUS PROJECTS

HOW WE CAN WORK TOGETHER

Design Psychology Coaching

Dig deeper - not only in creating a beautiful and functional home for yourself but also in understanding your core needs, motivations, obstacles to build a happy life as well in a three session coaching program.

The aim is to use the design of your physical space as a tool to create self-awareness about the link between your personal issues and the issues of your space.

[*Click for more*](#)

Designing and Styling

Creating a unique and personalised home interiors or beautifying property before going to rental or sales market.

Choose between two packages depending on whether you have already got some vague ideas but you need some helping hand of an expert or you feel quite clueless about the design and the style you would want to create in a space.

HOME HARMONY STARTER KIT

Do not forget to download your free gift, the Home Harmony Starter Kit. This free booklet will help you **identify the physical and emotional weak points of your everyday environment** so you can feel more aware of your needs, likes and dislikes and how they impact your general wellbeing. Also it will give you simple and easy tips to feel more connected and grounded to your home and to get clear about your ideal home and life.

It includes:

- A questionnaire with 20 questions to assess the 'hotspots'
- Five 'quick fix' tips to create a happy and healthy environment
- Three easy steps to get clear about your ideal home and life
